

Dear Valued Customer

February 1, 2023

This letter is to notify you that that the following Process Insights products have been discontinued as of January 31, 2023

- Model LPDT-65: Loop Powered Dewpoint Transmitter with XTR-65 Sensor
- Model LPDT-100: Loop Powered Dewpoint Transmitter with XTR-100 Sensor
- Model LPDT-100 P: Loop Powered Dewpoint Transmitter with XTR-100 Polished Sensor

The LPDT is to be replaced with the new Model LPDT2 which will have a broad set of options offering the customer more application options and lower cost options.

The Model LPDT2 is currently available for purchase in all configurations and certifications as listed below.

General Purpose rated Models.

- LPDT2 -65 Non-Display
- LPDT2 – 65 Display
- LPDT2 – 100 Non-Display
- LPDT2 – 100 Display

Hazardous Area Certified Models

- LPDT2 -65 Non-Display Certified
- LPDT2 – 65 Display Certified
- LPDT2 – 100 Non-Display Certified
- LPDT2 – 100 Display Certified

Process Insights will be supporting the original model LPDT with factory calibration, sensor replacement, and technical support for the next 5-7 years.

Process Insights understands the difficulties related to transitioning from one product to another. Our engineers, account managers and sales representatives will help you select the right product for your application. For questions or inquiry, please contact your area sales representative or send email to [sales.hou@process-insights.com](mailto:sales.hou@process-insights.com).

For general or technical information please visit our website <https://www.process-insights.com/products-3/products-industrial/dew-point-meters/lpdt2-series/>.

Best Regards

*Casey Letlow*
