

T-I Max EtO™

Features and benefits:

- Superior sensitivity, accuracy, and reliability.
- Rapid, continuous measurements with no calibration requirements or consumables.
- Fully compliant with the latest emission standards and occupational safety Lowest FIFRA targets and OSHA/NIOSH-defined levels.
- Fast, 24/7 performance - supporting leak detection, exposure monitoring, and environmental compliance.
- Absolute readings - no recurring costs or complex calibration setups.
- Designed for harsh industrial settings - rugged materials, low maintenance, and long operational life and low cost of ownership.

NEW

Key applications

Sterilization - Workplace
Exposure Monitoring

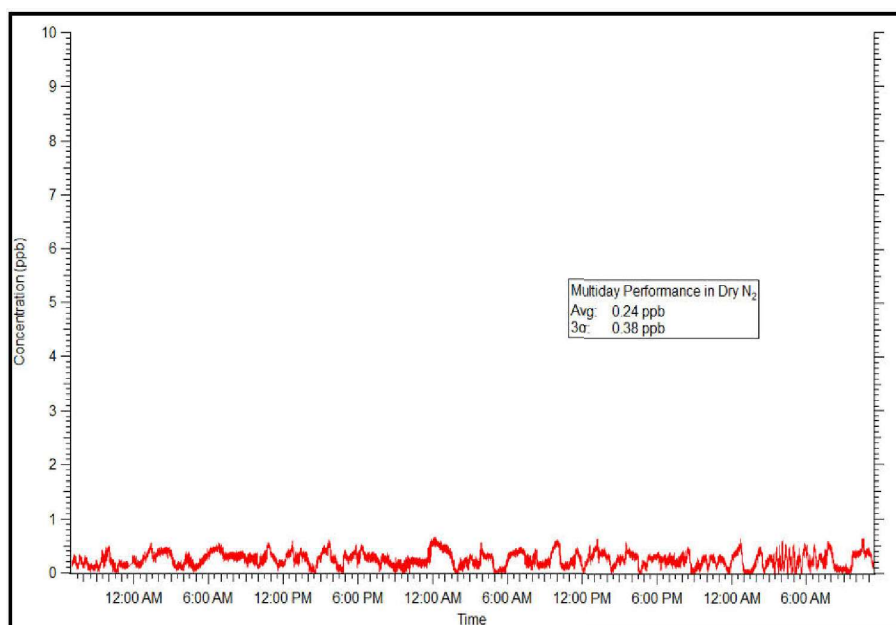

Continuous Emissions
Monitoring

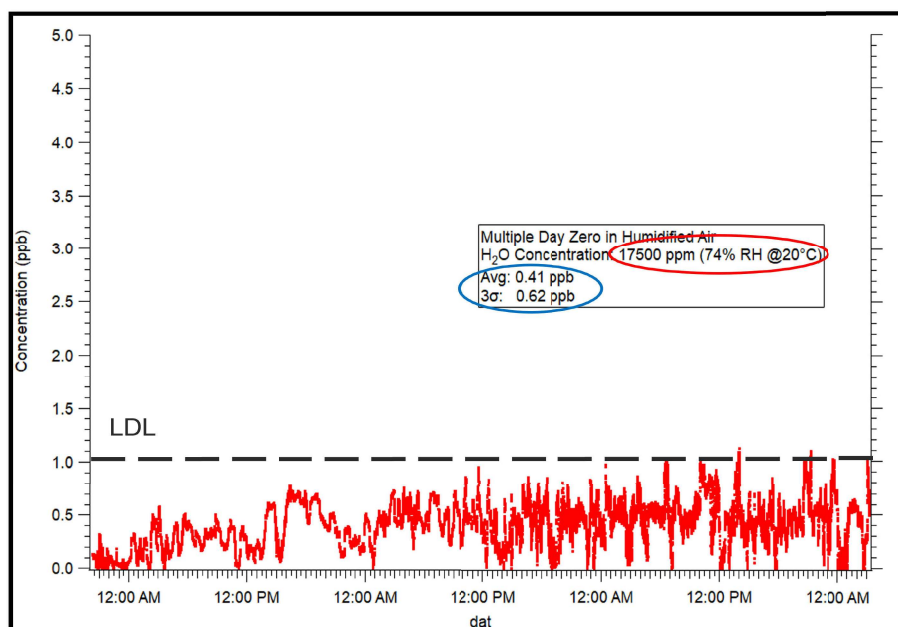

Superior Performance in Nitrogen, Clean Dry Air, or Ambient Air with a Turnkey Analyzer

Performance	Specification
Detection Limit (LDL 3 σ):	1 ppb
Range:	0 - 10 ppm
Precision (1 σ , greater of):	$\pm 0.75\%$ or 1/3 LDL
Accuracy (greater of):	$\pm 4\%$ or LDL
Speed of Response	< 3 min. to 90%

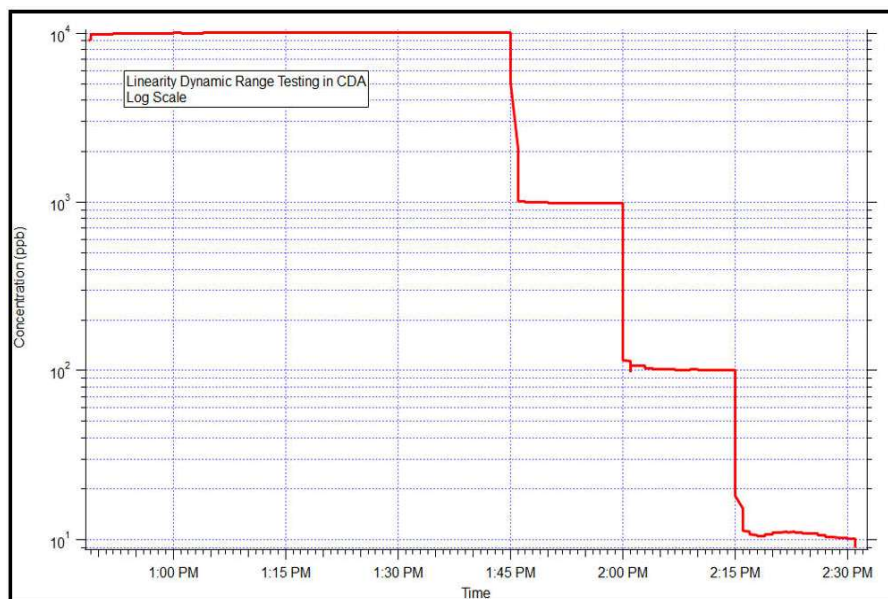

Zero Performance in N₂

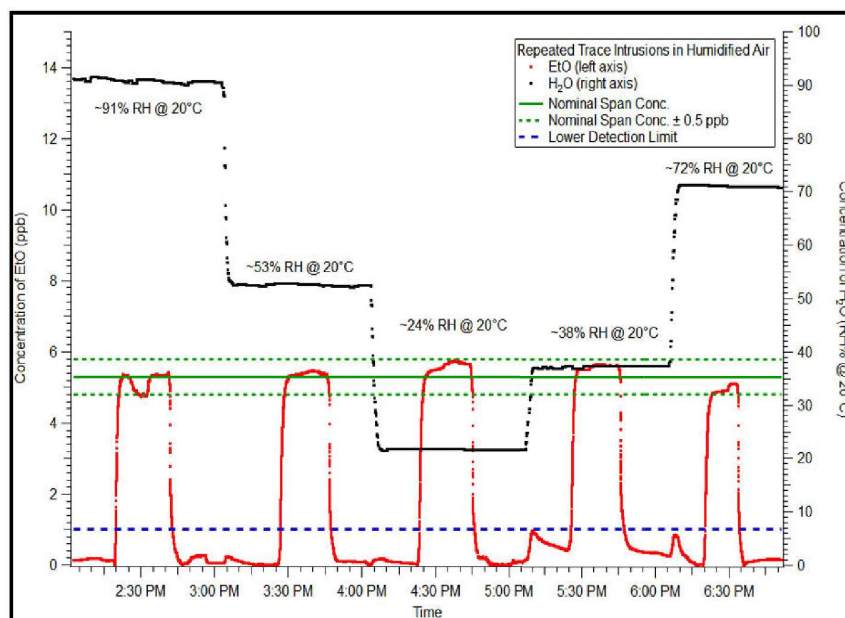

in Air

Speed of Response / Dynamic Range

Repeated Trace Intrusions at Radically Different Humidity Levels

GAIN REAL-TIME INSIGHT INTO YOUR PROCESS

Process Insights delivers premium analytical sensors, analyzers, instrumentation, software and solutions that are mission-critical to keep your operations, personnel, and the environment safe. Our commitment to customer satisfaction is evident through our diverse range of products, programs, and services, designed to accommodate various budgets and application needs.
